

## *Cascade Love*

Way across the sea where the cold wind blows  
Lived a cascade daughter with skin as white as snow  
She was my blue eyed lover, my shelter from the rain  
But one day she up and left me, never to be seen age

And each time I smell a flower  
Each time I feel the sun  
Each and every morning  
I'm thinking of my cascade love

Well I had to learn the hard way, love can be a losing game  
Sometimes you go into it and you don't come out the same  
It was a cold December evening when I told myself no more  
I packed my bags and sold my stuff cause I was coming home

And each time I smell a flower  
Each time I feel the sun  
Each and every morning  
I'm thinking of my cascade love

Standing there in the dock, I thought I heard her call my name  
But when I turned around o greet her, nobody came

And each time I smell a flower  
Each time I feel the sun  
Each and every morning  
I'm thinking of my cascade love

## *Leaving Tomorrow In the Morn*

I'm Leaving tomorrow on the first train out of town  
I'm leaving tomorrow in the morn  
So don't you cry baby, you know the reasons why  
I'm leaving tomorrow in the morn

I tried and I tried to make this love work  
But you're always out on the town  
If you really loved me, like you said you did  
You'd marry me and we would settle down

But on that night when I got down on my knees  
I cried and cried and begged you please

But you wouldn't say yes and you wouldn't say no  
Now I'm sad to say I gotta let you go  
And don't you come chasing after me  
I'm leaving tomorrow in the morn

But on that night when I got down on my knees  
I cried and cried and begged you please

But you wouldn't say yes and you wouldn't say no  
Now I'm sad to say I gotta let you go  
And don't you come chasing after me  
I'm leaving tomorrow in the morn

*It Ain't Too Hard (To Love To Love You)*

From the moment that I first saw you  
I got a feeling in my heart  
That a brand new stage of love's gonna start

From that sweet taste of sherry wine  
And the initial love embrace  
I found that I had stumbled upon something that's worth a chase

Your gold hair drove me crazy  
As it was dancing in the breeze  
Your hands were telling me stories all of which I believed

And as I looked into your eyes  
I saw a new shade of blue  
And I found it ain't too hard to love to love you

No it ain't too hard to love to love you  
A love like yours is easy to receive  
No it ain't too hard to love to love you  
When I want something you give me what I need

Now that it's sometime later  
And look back on the night we met  
I'm glad I took another chance at love I'm happy that I placed that bet

I'm a gambling man I never lay it down  
I always put my money in  
So when my aces won I got my queen of hearts my love and my best friend

So through trials and tribulations all the joys and jublations  
One thing to this day has remained true  
That when I look into your eyes I see a new shade of blue  
And find it ain't too hard to love to love you

*All I Have To Do (Is What I Have To Do)*

I had walks in the moonlight  
Someone to hold at sunrise  
Now all I have to do is what I have to do

I had kisses by my side  
A true love I could not hide  
Now all I have to do is what I have to do

I'll find another  
That ain't no bother  
It's gonna be somebody  
That knows how treat a man like me

I had passion filled nights  
Someone that I could hold tight  
Now all I have to do is what I have to do

I had me a good time  
But I also had bad times  
Now all I have to do is what I have to do

I'll find another  
That ain't no bother  
It's gonna be somebody  
That knows how treat a man like me

## *I Remembered Your Eyes (When You Left Me)*

A new love ain't easy love  
You never know what to do  
Do I take it slow or jump right in  
I'm always feeling so confused

Cause when I look back on the others  
The ones that stole my heart  
I wonder if I just end this now  
If I'd be better off

But there was something in those kisses  
The way they went on and on  
And it was something in those kisses  
That made me write this song

I remembered your eyes when you left me  
After just one night they were stuck in my mind  
And it was those shimmering eyes that let me  
Believe in you and leave all my fears behind

[Spoken]:  
Well I know that we've all been hurt by love  
We've all been down that road  
And I know it's hard when you've been hurt by love  
To wanna do it all again

But life it can be funny  
When one door closes another one opens  
And it's your job to walk through that door  
And see what's on the other side

I remembered your eyes when you left me  
After just one night they were stuck in my mind  
And it was those shimmering eyes that let me  
Believe in you and leave all my fears behind

## *I Couldn't Turn Him Away*

Here's a story for you all that I must confess  
You may read it in the papers, but I think I tell it best  
When I was young and stupid I committed a crime  
I was caught red handed and I figured I'd be doing time

They sat me down in front of a judge and jury appointed by man  
Charging me with a crime that they don't understand  
Don't tell me I'm guilt cause I know I ain't  
As God as my witness I did repent

We all stood in the courtroom my verdict was here  
The jury was hung and my life was spared  
For God's understanding is as deep as the sea  
He will forgive your iniquities

Now I'm free of this prison I'm free of these chains  
I learned my lesson I won't sin again  
Though I may stumble I'll never stray  
Cause when He offered His hand I couldn't turn Him away

## *As the Moon Rises Over the Sea*

Girl there's something I wanna tell you  
But the moment has to be just right  
How about tonight  
As the moon rises over the sea

It's been a good day In the summer  
I finally found someone true  
Darling I love you  
As the moon rises over the sea

When I first met you  
I didn't think things would happen so fast  
But now I know that we got a love  
That's gonna last and last

Now that my cards are on the table  
Here's what I need you to do  
Tell me you love me  
As the moon rises over the sea

When I first met you  
I didn't think things would happen so fast  
But now I know that we got a love  
That's gonna last and last

Now that my cards are on the table  
Here's what I need you to do  
Tell me you love me  
As the moon rises over the sea

## *He Can't Suffer Fools*

He can't suffer fools but the world's full of them  
No he can't suffer fools can't live with the pain  
He drags his bag of gold down gravel roads in the rain

Started out livin' freely rubbing elbows with kings and queens  
Eating steak for breakfast and caviar in between  
But then he came up empty sold his soul for the key  
And inside the box of truthfulness he found a clown with another key

He can't suffer fools but the world's full of them  
No he can't suffer fools can't live with the pain  
He drags his bag of silver down rocky roads in the rain

Moved on to movin' on preachin' gospel to those who came  
Tellin' people his was God conned a man into takin' Jesus's name  
He made it up as he went along describing the bars of his cage  
Thought he was a real genius trapped in his self-destructive ways

He can't suffer fools but the world's full of them  
No he can't suffer fools can't live with the pain  
He drags his bag of dirt through muddy waters in the rain

Stopped rollin in a desert his lonesome heart cried with the wind  
Looked up at his pyramid and saw all his sins  
So he tore it down violently had to destroy all the pain  
It's too cold of a world to hold a heavy heart in the rain

So you can't suffer fools even though the world's full of them  
No you can't suffer fools gotta live with the pain  
Just carry your bag of hope up rainbow roads till the end  
Just carry your bag of hope up rainbow roads till the end

## *Only Heartache*

Sometimes it seems like my whole life has only been heartaches  
Sometimes it feels like my whole life has only been full of pain  
Sometimes it feels like the sun won't shine, it's only gonna rain  
Sometimes it feels like my whole life has only been heartaches

I love a girl in Portland, but the flower wouldn't bloom  
I loved a girl in Seattle but I had to leave too soon  
I loved a girl in Frisco but the affection just didn't last  
I loved a girl in LA, but she was movin' way too fast

I loved a girl in Denver, but it all dried up in June  
I loved a girl in Phoenix, but we broke up under the moon  
I loved a girl in San Antone but she had to ride away  
I loved a girl in Kansas but she didn't have much to say

Sometimes it seems like my whole life has only been heartaches  
Sometimes it feels like my whole life has only been full of pain  
Sometimes it feels like the sun won't shine, it's only gonna rain  
Sometimes it feels like my whole life has only been heartache

I fell in love in Detroit bought a diamond ring and proposed  
But I had to leave for Memphis because she told me no  
I fell in love in Nashville but she loved herself more than me  
I met a girl in Ohio, but I found out she was cheatin' on me

Sometimes it seems like my whole life has only been heartaches  
Sometimes it feels like my whole life has only been full of pain  
Sometimes it feels like the sun won't shine, it's only gonna rain  
Sometimes it feels like my whole life has only been heartaches

Now I'm back in the islands and go fishin' down by the bay  
And dream of all the lost loves the one's that got away  
I cast my line and sit right back wait around for a bite  
Pull out my beat up six string and sing songs on through the night

## *I Can Sit Still For Awhile*

In my crazy hopeful dreaming  
I always knew someone like you  
Would come into my life  
But I never thought you'd turn me away

I know it ain't been easy for ya  
After crying with ya telling stories  
But walls can't stand forever  
Eventually they crumble and fall

Time's been good to you  
It's helped heal some of the pain  
But I know there's been times  
When you start feeling lonely again  
I'll be here for you just take my hand

I can sit still for a while  
Just knowing you'll be ok  
I can see that you've picked yourself up  
And started rollin on down the line

Feel the wind blowing behind you  
It's time all these dreams come true  
Let's roll together  
Side by side out to the sun

Time's gonna be good to you  
It'll help heal some of the pain  
But I know there will be times  
When you'll start feeling lonely again  
I'll be here for you just take my hand

*Let the Music Play  
(A Tribute to Johnny Cash)*

How do you tell the tale of the Man In Black  
A walking contradiction, part fiction and part fact  
He lived a million lives during the time he walked the earth  
Although he died a legend, he came from a humble birth

How do you combine the words, with a proper sound  
Do justice to all the poor and the beaten down  
I think of all the sick and old and thousands who have died  
Playing a Cash record at their bedside

But to answer my question, this is what I think he'd say  
Please don't eulogize me, I don't wanna be remembered that way  
Just tell 'em that I was a God-fearing man in my day  
That life and love will go on and let the music play

Let the music play, Let the music play  
Life and love will go on, And let the music play

Walk the Line, Big River and the Ring of Fire  
Folsom Prison Blues, Cry, Cry, Cry  
A Boy Named Sue, Ira Hayes, Sunday Mornin' Comin' Down  
Deliah's Gone, Rusty Cage, The Man Comes Around

And so as I watch and wait for redemption day  
I will keep on singing I Hurt Myself Today  
Ain't No Grave gonna hold this body down, no way  
Life and love will go on and let the music play

Let the music play, Let the music play  
Life and love will go on, And let the music play
